FLEXIBLE PLYWOOD : GURJAN & HARDWOOD

ABOUT US

Journey

Journey that began with a plywood manufacturing unit in East India some 30 years ago, which is still going strong.

Expansion

Expanded into import and mass-market supply of related ply-panel products, veneers, PVC and premium decoratives.

Infrastructure

Set up of centrally-managed regional warehouses and dealers for a pan-India infrastructure : Delhi, Chennai, Kolkata, Hyderabad and Gandhidham.

INTRODUCTION OF FLEXI PLY

- Flexi Ply, like the name suggests, is a completely flexible and light-weight plywood.
- The flexibility is made possible by the open grained texture of the wood, allowing the veneer on the outer surface to expand and the veneer on the inner surface to contract.
- Available on both - Gurjan (Keuring) & Hardwood backing, use Vivre Flexi Ply as your substrate to give shape and form to your designs.

FEATURES

Various Finishes
Possible

100% Termite
Proof

Easy Time

Easy Flex

STANDARD SIZE - 8ft x 4ft
