

vivre **PANELS**

Your partner for plywood panel products, PVC,
veneers & extraordinary decor in India.

COMPANY PROFILE

Conventionally, the ply and interior materials industry in India is not an organized one. 'Vivre Panels' is an attempt to defy that.

By leveraging the experience derived over 3 decades, the overriding goal of Vivre Panels is to help our customers fulfill their ambitions, offering them a combination of industrial knowledge, functionality, quality, design and price.

Vivre Panels makes every effort to create inspirational wood products for a better life, a better future and a better planet. Vivre, indeed, is the French word for life.

For a better life.

Mr. Rajendra Toshniwal
Director

Mr. Surendra Toshniwal
Director

1990s

Beginning of a journey that began with a plywood manufacturing unit which is still going strong

Early 2000s

Venturing into import of related mid-value commodity products like MDF and laminates

Late 2000s

Diversification into mass market wood veneers, primarily Asia-based

2010s

Establishing regional warehouses for pan-India supply: New Delhi, Kolkata, Chennai, Hyderabad & Gandhidham

2021

Consolidating all units under 'Vivre Panels', transcending commodity products and expanding into extraordinary decor (Vivre Profiles, Vivre Louvers etc)

The image displays a collection of wood veneer samples arranged in vertical strips. The samples include various wood species and finishes, such as light oak, dark oak, maple, and a dark-stained wood. The strips are set against a light gray background, which is itself framed by a green border. A white horizontal band with a black border runs across the center of the image, containing the text "WOOD VENEERS".
